

CENTER for DIGITAL SCHOLARSHIP

New Technologies, New Knowledge Graduate Student Lightning Talk Event

Date: Thursday, 10/9

Time: 9:30 AM - 12:00 PM

Location: Center for Digital Scholarship, Hesburgh Libraries - 1st Floor Northeast

The Center of Digital Scholarship and the Office of Digital Learning are proud to feature a Graduate Student Digital Research Lightning Talk session as part of the 2014 Digital Week schedule.

This inaugural “best of” digital scholarship showcase will be comprised of 5-minute talks that allow graduate students from across campus departments to present their current research.

The theme of the event is **“New Technologies, New Knowledge”** and should focus on new digital technologies and/or computational approaches to research. Participants may present their work in the form of a focused summation, a concentrated case study, or a methodological exegesis. Presentations will be divided into thematic groups with question and discussion following each. This fast-paced event is a great opportunity to share your research with the campus community and to develop your communication skills. Brunch and coffee will be available to all attendees.

Graduate students are invited to submit a short abstract (200 word max.) using this online form: goo.gl/4nML8z

Submissions are welcome on any topic relating to Digital Week event themes (anything from interface design and data analytics to intellectual property in the digital age). Preference will be given to advanced PhD students, but all graduate students are encouraged to apply. Applications will be selected according to relevance to the session theme, innovative nature of the research, and presentation clarity.

The closing date for submissions is 9/28. Successful applicants will be required to submit their final slide deck to cds@nd.edu by 10/2.
